

Choosing your future

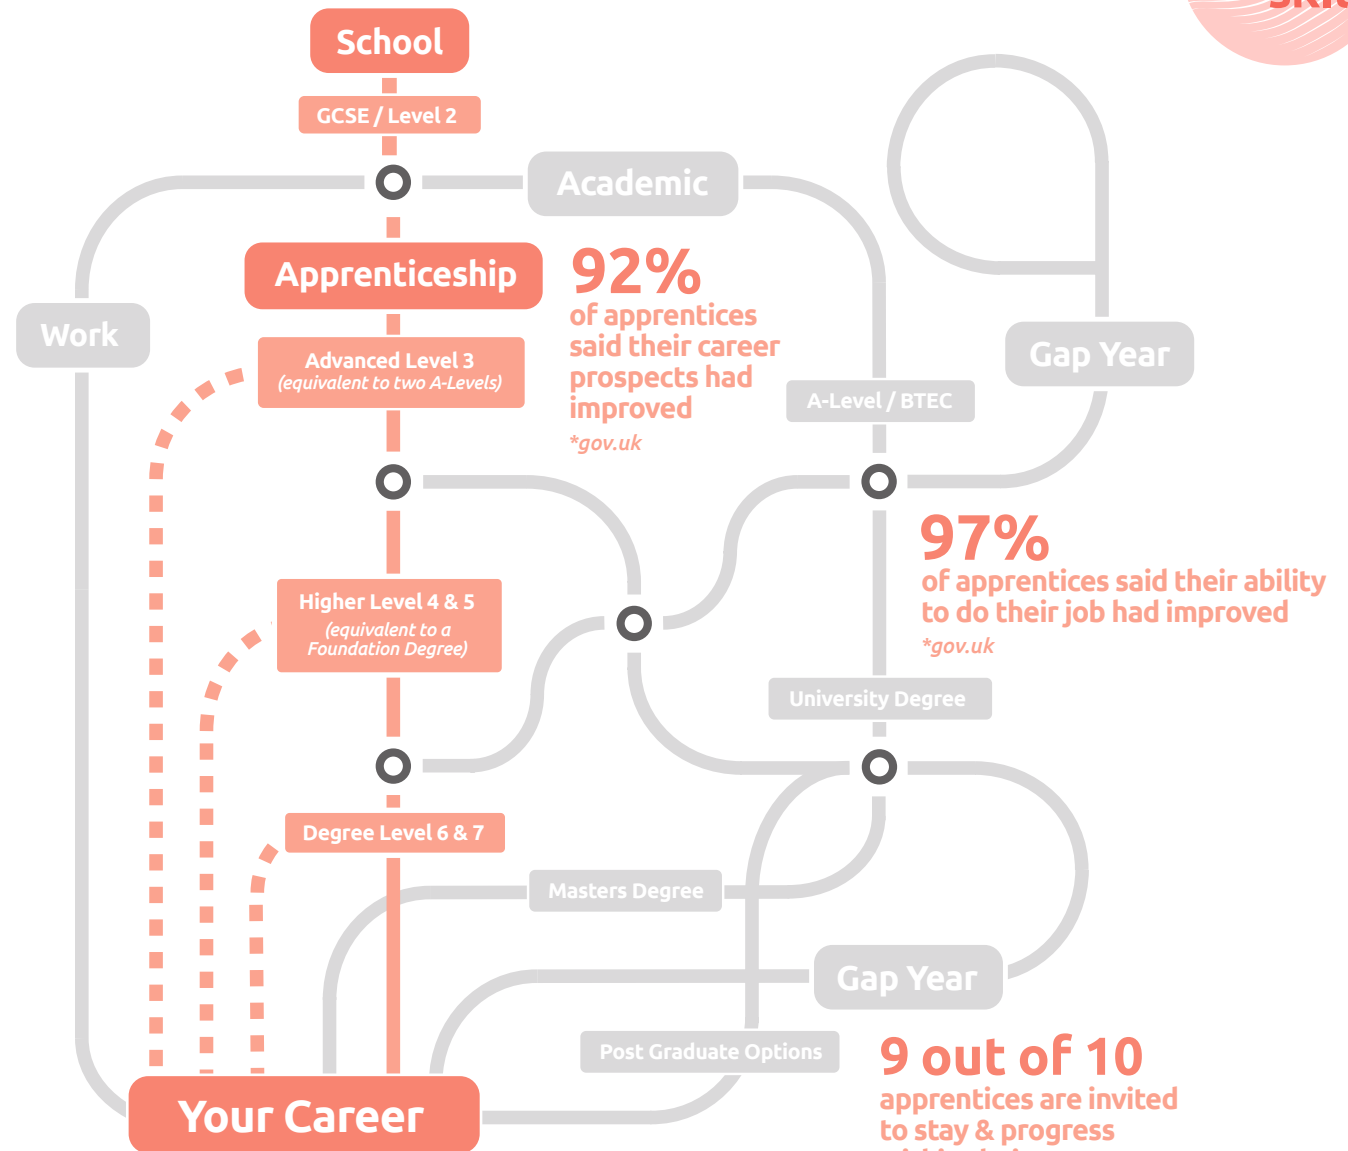

Finishing school and not sure what to do next?

Deciding which route to take after finishing school can be a difficult one to make. Whether to go straight into the world of work or take the academic route of A-Levels and then a university degree? An apprenticeship is a valuable way of getting you there.

Why choose an apprenticeship?

- You will be earning a wage whilst gaining a nationally recognised qualification
- You will have the opportunity to get hands-on experience within your chosen industry
- Each programme is designed by employers working closely with training providers, ensuring the knowledge, skills & behaviours learnt are relevant to the programme you are enrolled on
- When you finish your studies, you will have no debt

9 out of 10 apprentices are invited to stay & progress within their company
